The **Airflex*** Technology

What is **Airflex*** Technology?

Conventional Paper Towels have tightly compressed fibres which cause water to sit on top of the towel, taking longer to absorb.

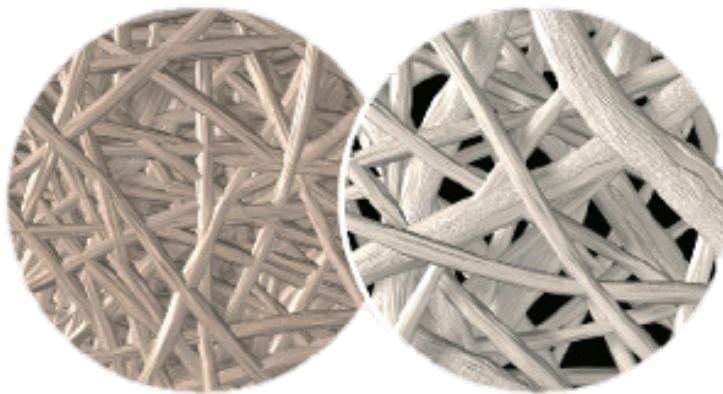

Airflex* Paper Towels have specially spread fibres, creating absorbency cells to quickly draw water in.

Most paper towels require multiple pulls and sheets to dry our hands, **Airflex*** technology was designed to absorb water more efficiently, requiring usually **1 sheet**.

Technology & Impact on Performance

Conventional

Airflex*

1000x magnification

Faster absorbing for more effective drying

Stronger when wet so they won't break up

Softer for a more luxurious feel

Made with less natural resources for a more sustainable choice

SCOTT® FOLDED PAPER TOWELS

Benefits

- Made with AIRFLEX* technology for superior strength and absorbency, making one sheet enough for one hand drying event.
- Compact towel is folded slim-wise 5x for more efficient use of space while preventing clump dispensing.
- Longer towel format for better hand coverage.
- Made of mix fibers & Forest Stewardship Council Certified.
- Compact dispenser is so slim at just 7cm in depth, so it can be placed wherever it is needed, even in tight spaces.
- Sleek, cutting edge dispenser design is sure to boost an establishment's image.

SCOTT® Folded Towels

Code	Name	Color	Material	Sheet Size (cm) (W/L)	Sheets/Pack	Packs per case
5855	SCOTT® AIRFLEX Compact Paper Towels	White	Airflex	295mm x 190mm	110 sheets	16 packs
28610	SCOTT® Multi-Fold Towel	White	Airflex	240mm x 231mm	250 sheets	16 packs
28630	SCOTT® Multifold Towel	White	Airflex	240mm x 180mm	250 sheets	16 packs

SCOTT® Folded Towels Dispensers

Code	Name	Dimensions (H/W/D)	Cartons per case
70220	DISP AQUARIUS MF TWL SGL CLP	234mm x 123mm x 286mm	1 carton
70230	DISP AQUARIUS MF TWL DBL CLP	453mm x 126mm x 299mm	1 carton
69450	DISP AQUARIUS INTER-FOLD TWL	399mm x 265mm x 136mm	1 carton
70240	DISP AQUARIUS COMPACT TWL	380mm x 89mm x 240mm	1 carton

SCOTT® ROLLED PAPER TOWELS

Benefits

- High capacity for lesser maintenance/monitoring and lesser storage space.
- Acts a storage cabinet for paper towels since a full dispenser holds an equivalent of around 8 regular paper towels.
- Compact winding technology allows for the longest meter length per roll in the market.
- Made with AIRFLEX* technology for superior strength and absorbency, making one sheet enough for one hand drying event.
- Longer towel format for better hand coverage.
- Hygienically sealed.
- Made of mix fibers, and is bulk-packed for lesser impact on environment.
- Forest Stewardship Council Certified.
- Dispenser "auto-cuts" sheets smoothly, precisely, minimizing sheet back-feeding in every stroke.
- Sloping dispenser design for easier, one-wipe cleaning, and prevents items being placed on top.
- Roll format eliminates wastage from clump dispensing and falling sheets from dispensers.
- Dispenser feed-knob allows for manual dispensing of sheets when needed.
- Impact resistant dispenser resists most type of user abuse.
- Dispenser viewing window allows for easier monitoring of refills.
- Sleek, cutting edge dispenser design is sure to boost an establishment's image.
